

## DISEASE SPREAD IN THE SCHOOLS.

Mothers in Convention Hear  
How Uncleanliness on the  
Part of Pupils Infects Many  
Others in Public Institutions.

### INADEQUATE MEDICAL AID.

Dr. Elizabeth Jarrett Suggests Special  
Classes for Those Suffering  
from Hereditary Troubles and Are  
Unable to Keep Up with Others.

"Out of 36,000 children examined by  
medical inspectors of the public schools  
in three months more than 4,000 were  
found to be suffering from contagious  
diseases. Save for careful inspection  
the public school would be the most  
active agent in the dissemination of dis-  
ease."

"Dirt is the abject ally of disease.  
And no one not a medical inspector  
knows the conditions of filth that are  
sometimes met with in the public  
school. In one of the downtown schools  
a child who had removed her outer  
garments at the request of the doctor,  
actually refused to take off her under-  
clothing on the ground that it had been  
swept on for the counter."

With this statement, Dr. Elizabeth  
Jarrett, President of the Associated  
Alumni of Normal College, electrified  
the New York State Assembly of Mothers  
now in convention in the hall of the  
Board of Education, Park avenue  
and Fifty-ninth street.

"Mothers are not careful to keep their  
children away from school when they  
show signs of illness," she continued.  
"Of the sick children sent to school to  
spread infection among their playmates  
there were 88 cases of measles, 109 of  
diphtheria, 52 of scarlet fever, 702 of  
eye disease and 200 purulent diseases."

"There are in the public schools thou-  
sands of children suffering from heredi-  
tary or acquired disease. As a rule  
these children are not as bright as their  
healthier playmates. They trail along  
hopelessly at the foot of a class year  
after year, passed from one teacher to  
another with the remark that they can-  
not be taught anything."

"Private charity has provided for  
separate schools for the crippled chil-  
dren of the city. No more touching  
right than that of the helpless little  
ones being taken to and from the  
cripple schools by the wagons of the  
Children's Aid Society can be seen in  
New York."

"Why should we not do as much for  
the mentally minded? Does a mother  
pay less or more attention to her deli-  
cate child? Should not the city make  
special provision for the backward  
children who, if put in separate classes,  
no stigma being attached to member-  
ship, might grow up into bright, useful  
citizens?"

## HER DOG WHISTLE RAISED THEIR HAIR

Early Morning Trolley Passen-  
gers Frightened by Woman's  
Signal to Her Greyhound.

Passengers on a One Hundred and  
Sixteenth street cross-town car were on  
their way to business, presumably, this  
morning, when a stout, middle-aged  
woman clambered aboard at Lenox ave-  
nue. She carried a dog whip with a  
whistle in the handle, and took up her  
position in the rear door.

Suddenly she blew a blast so loud that  
half the passengers jumped up in their  
seats.

"It's only for my dog," she said, apolo-  
getically, to the conductor, as she  
pointed toward a big greyhound that  
was running just back of the car.

The One Hundred and Sixteenth cars  
travel on a tortuous route as a "Colo-  
rado canyon railway," and at each turn-  
ing the stout woman used her loud and  
shrill whistle that she raised the hair on  
the passengers' heads quicker than a Sioux  
Indian could do.

Those who were going to Columbus  
avenue dropped off long before they got  
there, and Amador street left blocks  
this side. After the sixth blast a re-  
tired man who had been rapidly accum-  
ulating the delirium tremens gave a wild  
yell, and dived from the front platform.  
"I hate men who don't love animals,"  
said the stout woman as she descended  
from the vehicle like a Queen of Sheba.

## BABY AND BANK ROLL SAVED FROM FIRE.

Mrs. Herion Rejoices at Timely  
Discovery of Flames and Her  
Double Good Luck.

Mrs. Mary Herion, who occupies the  
second floor of the room on the little  
fellow, and soon afterward two men  
saw smoke coming from the windows.  
They forced an entrance and found the  
youngster sitting on the floor surround-  
ed by fire. One picked up the child and  
carried him to a neighbor, who the  
other turned in a fire alarm. The flames  
were quickly extinguished.

When Mrs. Herion returned she fell  
upon an old mattress which had been  
burning blazing from her window and  
screamed for her boy. In the midst of  
her supplications she put her hand into  
the mattress and drew forth a fat roll  
of bills amounting to \$500, which was  
unharmed by the fire.

## AROUND WORLD TO WIN \$24,000

Young Frenchman Started from  
Paris a Year and a Half Ago  
Without a Cent to Return in  
Three Years on a Wager.

### TO TOUCH ALL CONTINENTS.

Adventurous Joseph Gerard Must  
Visit the Principal Cities, and He  
Says He Will Accomplish the Feat  
with Time to Spare.

A small, sturdy young Frenchman ar-  
rived in New York to-day en route  
around the world on a \$24,000 wager. He  
must touch every continent and get  
from Paris to Paris in three years.

The traveler's name is Joseph Gerard.  
He is thirty years old, and is really  
knocking about for the love of it. He  
began his journey in 1901 as the result  
of the wager between himself and a  
member of an athletic club to which he  
belonged.

He made the assertion that he could  
visit the principal cities in every  
continent, starting from Paris without  
a cent and get back within three years.  
The club members said he couldn't, and  
the bet was arranged.

From Paris Gerard went to Belgium,  
Germany, Finland, Russia, Siberia, Co-  
rea, Japan and China. In China he was  
taken ill and had to go back to France,  
but once there he recovered shortly, and  
went on down into Spain, Portugal, then  
to England, Scotland, Ireland and back  
to England, where he sailed for Amer-  
ica. He came over on the Lake Cham-  
plain and landed in Quebec. He visited  
Montreal, Ottawa and other Canadian  
cities before crossing the frontier at  
Malone, N. Y. Then he made his way  
over to Manchester, Vt.; Fall River,  
Mass.; Providence, R. I., and thence to  
this city.

To-night he is to deliver a lecture in  
French at the cafe Francois, No. 155  
West Twenty-sixth street. Admission  
will be free. He will tell about ex-  
periences he has had in his travels.

On leaving here he will go to Van-  
couver, and thence through California  
down through Central America and into  
South America. He expects to go from  
there to Australia, touch at Cape Town,  
and then up through the Suez Canal to  
his beloved France again. He says he  
will have time to spare, for he has not  
been gone more than a year and a half.

## STREETS PAVED WITH RICH ORE.

At Altman, Col., Rook Macadam  
from Famous Mine Assays  
\$20 a Ton.

DENVER, Col., Oct. 28.—The authori-  
ties of Altman, in the Cripple Creek  
district, have been paving the streets  
of the town with gold. The gold is in  
the ore state, having been taken from  
the waste dump of the Pharmacists  
mine, where the rock was cast aside as  
useless.

Some of the "pieces" looked so well  
that samples were taken from the street  
at random and assayed. The returns  
showed an average value of \$20 in gold  
a ton. The police had to stop the gen-  
eral upheaval of the streets when this  
became known, and the Pharmacists  
Mine Company has ceased giving away  
the dumpings.

## CURED OF LUNG TROUBLE

By the KOCH LUNG CURE.

"I was unable to sleep on account of  
severe coughing, sneezing and asthma  
attacks every night, and therefore de-  
termined to try the Koch Lung Cure, at 43  
West 22d St., New York. Since taking  
the Koch Inhalation treatment I have slept  
every night and have had no asthmatic at-  
tacks, in fact, the Koch treatment made me  
well, and I have remained well.  
"For years I could hardly walk without  
holding on to the fence and had to lift my  
torso to go upstairs. I would not go  
through this experience again for \$10,000.  
I live at 200 East 82d St., New York,  
where I am well and favorably known in  
the fur business. It is well known that  
people who work among sealskins and sim-  
ilar furs, as I do, are subject to this dis-  
ease. I never expect to be cured without  
knowing this climate, but I at last found a  
treatment that absolutely relieved my bron-  
chial tubes and throat by breathing into the  
air-passages the healing, oily vapors of the  
Koch Lung Cure, at 43 West 22d St., New  
York.  
"As I am cured, I feel so grateful that I  
do not hesitate to offer my testimonial for  
publication for the good it will afford my  
fellow-sufferers.  
"I cannot bear to think of those who are  
suffering when the cure is at their doors,  
therefore make this frank statement and  
am willing to prove the truth of it to any  
one who will call upon me at my home.  
"Mrs. LOUISA LARLEY,  
"200 East 82d St., New York."

## SUFFERED MANY YEARS With a Complication of FEMALE DISEASES. Two Robust Women Who Owe Their Restored Health and Usefulness to Pe-ru-na.

"I want to do what I can to let  
the whole world know what a  
grand medicine Peruna is. For  
eleven years I suffered with fe-  
male troubles and complications  
arising therefrom. Doctors  
failed to cure me, and I despaired  
of being helped. Peruna cured  
me in three short months. I can  
hardly believe it myself, but it is  
a blessed fact. I am perfectly  
well now and have not had an  
ache or pain for months. I want  
my suffering sisters to know  
what Peruna has done for me."  
Miss Marie Johnson.

The above testimonial is from Miss  
Marie Johnson, 11 Columbia, East De-  
troit, Mich. was worthy Vice-President in  
Hope Lodge, No. 8, Independent Order  
Good Templars. Miss Johnson, as so many  
other women have also done, found in  
Peruna a specific for a severe case of fe-  
male weakness.

Female catarrh is a phrase coined by Dr.  
Hartman, covering all that large class of  
diseases that used to be known as female  
weakness. The lower portion of the abdo-  
men is called by anatomists the pelvis.  
The contents in this portion of the  
body are known as the pelvic organs.  
There are several of them, very delicate  
and very subject to catarrh. Few women  
escape entirely catarrh of these organs.  
While each case presents some minor dif-  
ference as to detail, they are all in reality  
alike.

Pelvic catarrh, therefore, is a generic  
term that covers all cases of catarrh of  
the pelvic organs. There is no cure equal  
in promptness and permanency to a short  
course of Peruna.

Peruna does not relieve these cases by  
temporarily mitigating some symptoms,  
but by a removal of the cause. Many a  
woman can testify that local treatment

does not permanently cure. A large multi-  
tude of women are constantly going from  
doctor to doctor to receive local treatment,  
with little or no result.

In Peruna these women find a prompt  
and permanent cure. Thousands upon  
thousands of testimonials to this effect  
are received by Dr. Hartman every year.  
The good that Peruna has accomplished in  
this class of cases can scarcely be over-  
estimated.

Imitations of Peruna.—The world  
is full of imitations of gold, imitations of  
diamonds and imitations of everything that  
is costly and useful.

Peruna has come to be recognized as the  
greatest remedy for catarrh in the world,  
and insisted that their remedies were just as  
good. This was found to be impossible,  
however, and now imitations are springing  
up everywhere.

Peruna is imitated in the kind of bottle.  
Imitators think that if they get a bottle  
that resembles the Peruna bottle they  
will be able to sell more of some alleged  
catarrh cure.

The color of Peruna is imitated. Some-  
times the taste. The claims that are made

Tens of Thousands of Testi-  
monials Received Yearly.

Thankful Women Who Have  
Been Cured by Dr. Hartman's  
Free Treatment.

Miss Ruth Emerson, 72 Sycamore street,  
Buffalo, N. Y., writes:  
"I suffered for two years with  
irregular and painful menstrua-  
tion, and Peruna cured me with-  
in six weeks. I cannot tell you  
how grat-ful I feel. Any agency  
which brings health and strength  
to the afflicted is always a wel-  
come friend, and to-day the mar-  
ket is so filled with useless and  
injurious medicines that it is a  
pleasure to know of so reliable a  
remedy as you place before the  
public."—Miss Ruth Emerson.

### GLOVES

for Women.

Did you ever wear Gloves  
that fit when you bought  
them, but wrinkled soon  
after? The fault was in  
the tanning. We look  
after that pretty sharply  
in our gloves. The dress-  
ing and leathers are per-  
sonally selected. They  
fit all the time, and give  
better service than gloves  
generally do. Here's one  
that will emphasize the  
point.

### The Patricia,

## Skirts, Tailor-Made Suits and Shirt Waist Suits.

We are specialists in apparel. We devote all our time and talents to it.  
Its perfection is our constant study. Does this not give us advantages both  
in their creation and the cost of production? Nowhere is this more evi-  
dent than in our apparel for women. Take these three garments, for in-  
stance. They have all that cleverness and the tailor's art can put in them;  
the regular prices are much less than you would pay for the mediocre kind  
elsewhere. We wish to convince you of this; the most practical way is a  
liberal concession in the price, because the garments will argue their own  
worth. So, for to-morrow—

**AT \$16.50**  
Instead of \$22.50

Shirt Waist Suits of Taffeta  
Silk; full blouse waist, with  
long tie and embroidered in  
French knots, fancy novelty  
buttons; skirted skirt. Thor-  
oughly well made.
